Beastly Bugs Edition

Class 3's Minibeasts topic ended very successfully when they held their Beastly Bugs Evening on the last Friday of the Autumn half term. The children carried this out as an Enterprise project. They planned the whole event and designed refreshments and games to make the evening more entertaining and raise money for school equipment. In the first week back they counted the money taken, worked out the profit and held discussions to decide what to spend the money on.

Sleeping lions, animal pairs and audience participation.

The first Stay and Play session at the new Children's Centre opened last week. Peanut came to see what was happening and found a wonderful selection of new toys to play with. Mrs. Kirk and Mrs. Hurdiss showed him how to share his toys with his friends. If you have a child under three, call in at the Children's Centre and find out when the next Stay and Play session is.

Have you looked inside the hollow tree? Can you use the clues around you to work out who lives there? Our children are quickly developing their skills of inference and deduction. No wonder we have so much to celebrate in our assemblies. Just as well we have our Year 5 and 6 children to lend a hand getting ready.

Our New Unit parents came along to school to find out what happens in all the areas and how our learning challenges are developing the children's skills and independence.

DON'T FORGET the Remembrance Service at St. Mary's Church on Wednesday 11th November at 9.30am. Parents' Evenings are next week, please send your slip back tomorrow.
